A man, to be loyal in this State, accordleg to the organs of the small faction that roted for Lincoln, must be abblition. That a the party test, and, of course, the test of cyalty. Four years ago the loyal men of the State proclaimed that the contest had nothing o do with slevery; that the rebels were deceiving the people by pretending that it had The Secrasionless alone in Kentucky mainalped that the war would be waged upon lavery. All recollect hew uniformly the Union men met this position by a denial; how bey all admitted that any attempt at tuch un warrantable ection could not and ongot not to be defended and approrted. They would have scouted such doctrines as are now preached by the Press, the Commonwealth & Co. No such doctrines were preached at that time. Every one knows the effect such

teachings would have had at that time. Where,

then, were the men of the Press and Commonwealth? Why did they not then tell the people of the State the honest truth, if they knew it? They were silept. They left to others the ask of saving the State from secession. They quietly laid back, chuckling at the process, expecting to take advantage of the time. They igreed with the Becessionists that this was to he a war upon alevery; but they didu't say so. They got up no organs to publish that time After others had saved this State from being precipitated into the reb illon, then they come out and denounce these men who did the work and the voting in this State as traitors and rebels, or rebel sympathizers, because h y will not be builled into a position they

Augusta papers of the 25th say the force that captured Milledgevills rumained there till the evening of the 24th, having burued the State House, Brown's Hotel, and the Penterstand

till the evaning of the 24 h, having burned the Stata House, Brown's Hotel, and the Penlientiary, and captured a small quantity of ammunition.

The main body of Sherman's army was reported on the 24th to be thirteen miles west of Sanadersonville, coming toward Savannah rapidly, spreading devastation.

The Richmond Whig of the 1st says the news from Georgis yesterday shows Sherman is gradually approaching the coast, but retrains from giving the direction. He has mot with no opposition since the repulse at Oconec, but efforts are making to head him off.

Wheeler had two victorious engagements with Kilpatrick's hat.

Gen. Hardee telegraphs from Sevannah thet ha left Macon perfectly safe, and was making certain disposition in that quarter.

The Hickmond Disparch of the 1st says that official information of Shermon's movements was received there tha day before, but does not mention his whereabouts. It says only fourteen gusboats and transports are mar Port Royal.

The Charleston Mercury of the 24th says:

not meetien his wheresbouts. It says only fourteen gusboats and transports are near Port Royal.

The Charleston Merenry of the 24th says: The enemy have forty-two pieces of heavy ordenese on Morris Island, bearing on Fort Sumpter and Sullivan's Island. They are busy mounting mortans. They have a first of some dezen monitors at Port Royal and somewhern on the coast a deses and a half more. These proparations indicate an attack on Charleston and an advance of Shermon toward Angusta. There is no time to be lost in preparing to meet the issue.

The Savannah Republican of the 35 h says a large first is now assembled at Port Rayal. The Savannah News thinks Sherman's destination is that city, and unless his army is whipped, routed or ceptured, he will reach the piece.

A Hilton Head correspondent says General Foster proceeded up Bread river with an expedition, and landed fire miles below Feoriation bridge, marched on and asputred the bridge after sharp fighting, the rebels oracasting. A large quantity of cotton was found and desiroyed.

OFFICE OF THE LOUISVILLE DEMOCRAT. 3 The past week has developed no material change ! ur Froduce markets. Flour has ruled firm at our que-stions, though the demand has been small, being al-lost entirally to supply the wants of the city millers and retail grocers. Shippers are not disposed to purchase to any extent, as there is but little margin be reen the prices here and at other points. Wheat has mied firm, and prices are higher than at the close of ast week. The receipts have been light, and sli that has arrived has been read by taken by the millers. Onte are stiff, with sales to dealers from wagons at 75@75c.

The only change that has taken place in the Grocer narket is an advence in Coffee, ormed chiefly on the rorable news received from New York. The market-day closed at 43 to 450 for prime Rio. Sugar and Mo-

ed stiffer, with the Government egents and pacers offering 101/0101/c gross. The receipts were light, and the only sales reported on that day were were 200 head at 101/c gross delivered here, and 700 head at 91/o still better feeling in the market, end 1,000 head were sold at lie. Wednesday there was less disposition on the part of the farmers to sell, and but 150 head were offered, which were sold at lie gross. Friday there ocipts were larger than during any previous day, the sties amounting to 5,700 head at lie gress. To day the market was saint and dull, though neter was aniset and dull, though neter security. the market was quiet and dull, though prices remain unchanged. The weather has been unfavorable for hilling, and but faw have been packed during the week. The pens were all full, which was the reason that the pacters were not disposed to purchase to-day. The number slaughtered in the city so far, including those acked for the Government, is a little newards of 16,000 lead. At Jeffersouville 6,000 have been packed for the lovernment, while at New Albany 6,500 have been laughtered on private account, which makes the endre number killed around the falls so far but a little short of 23,030 head, which, with the 15 000 head in pens o-night, will make the total receipts about 44,000 head, The Provision market has ruled quiet and dull during the week, with no offerings being made for any of the llog products. The only transaction during the week

das a sale of 30 tos prime Lard at \$1%.

The demand for Money has been large the past week, and bankers have offered them more than they feel deposed to take, so that parties find it difficult o preciate loans.
